Technical Data Sheet

MT 613Y is a washi paper tape with a high temperature resistance of 130°C. It is suitable for automotive, outdoor and industrial applications, and can be used in combination with protective films. It provides up to 14 days of UV resistance, leaves no adhesive residue after removal upon construction, and features stable performance as a premium-quality choice.

Item	
Total Thickness	95 $\mu\text{m} \pm 10\mu\text{m}$
Tensile Strength	$\geq 80 \text{ N/25mm}$
Elongation	$\geq 3.5\%$
Peel Strength (to Steel Plate)	$\geq 2.8 \text{ N/25mm}$
Initial Tack	≥ 12
Temperature Resistance (45min)	130°C
Holding Power	$\geq 24\text{H}$
Backing Material	Washi Paper
Adhesive Type	Water-based Adhesive
Available Color	Light Yellow

The data in this data table are the measured values of the product under certain conditions and are not guaranteed values.

Application:

- Plasma spraying protection
- High-temperature spray painting protection
- Sandblasting protection
